

	SALES SPECIFICATION	Effective date:	July 10, 2025
PRODUCT NAME	Hi-Sil® 233	Page	1 / 1

I. PARAMETERS

PARAMETER	SPECIFICATIONS		METHOD
	MIN	MAX	
Surface Area, BET-5, m ² /g	125	145	CD-25-15G
Moisture, as packaged, Wt %	3.0	7.0	CD-25-8D
pH	6.5	7.3	CD-25-9
SiO ₂ -hydrate, %	87.0	-	CD-25-13D

II. ADDITIONAL INFORMATION

Amorphous Precipitated Silica
Appearance: white, odorless powder
This specification is subject to change without notice.

III. REGULATORY INFORMATION

Qemetica's Global Product Safety and Regulatory Information Sheet (GPSRIS) for HI-SIL® Silica, Untreated LO-VEL® Silica, SILENE™ Silica, and FLO-GARD™ silica products can be found at: [Silica | Qemetica](#). The GPSRIS provides additional information, specifically about the following:

- Uses and applications
- Physical and chemical properties
- Regulatory information
- Product certifications
- Corporate responsibilities/policies
- Storage and shelf life

For specific inquiries, please contact your Qemetica sales or customer service representative.
